CATIM, after CE Type Examination certifies that

DESIGNATION: System of Translational & elevation of People

TYPE: Vertequip

MODELS:

S.T.E.P. NO LIMITS	S.T.E.P. NO LIMITS EASY	-----	-----
---------------------------	--------------------------------	-------	-------

DESCRIPTION: System of Translational & elevation of People for vertical works, with the following components:

- Fixing system with points of attachment / suspension spaced by 3.5 m.
- Power rail system parallel to the aluminum rail for electrical power supply.
- Translation system that runs along the aluminum rail.
- Lifting winch, for elevating people, suspended on the translation system.
- Backup / descender system, independent of the translation and elevation systems, that run along the aluminum rail and provides an independent suspension point to the person.
- Remote control that controls the movements of the translation and elevation systems.
- Lifting winch, suspended on the translation system, where the Backup / descender system is suspended (only on the S.T.E.P. NO LIMITS EASY).

MANUFACTURER: Requester

Is in conformity with the technical file and satisfy the essential requirements of safety and health applicable, for the service conditions overseen by the manufacturer.
